Garrison May Ask Aid In CIA 'Coverup' Probe

WASH POST 5/9/67

NEW ORLEANS, May 8 (UPI)—District Attorney Jim Garrison reportedly will ask the U.S. Senate this week to investigate an alleged Central Intelligence Agency "coverup" in connection with the Warren Commission probe of the Kennedy assassination.

The New Orleans States-Item quoted Garrison as saying the CIA and the FBI cooperated in concealing facts from the Commission.

The story did not say how Garrison would seek Senate aid, but he is a known political and personal friend of Senate majority whip Russell Long, (D.La.). Long has given encouragement to Garrison's assassination investigation and has expressed doubts about the Warren Commission report.
